PROFESSIONAL SUMMARY

Computer Science Engineering student graduating in 2027 with hands-on project experience in Python, Java, JavaScript, FastAPI, React, Node.js, and Generative AI. Experienced in developing AI-powered applications, Retrieval-Augmented Generation (RAG) systems, machine learning solutions, REST APIs, and document processing workflows. Strong foundation in data structures, algorithms, and problem-solving. Seeking a Software Developer, Python Developer, or AI/ML Internship opportunity.

EDUCATION

The Oxford College of Engineering **2023 – 2027**
Bachelor of Engineering in Computer Science and Engineering **CGPA: 7.07/10**

New S Public School (CBSE) **2023**
Higher Secondary Education (Class XII) 67%

TECHNICAL SKILLS

Programming Languages: Python, Java(Basic), JavaScript(Basic)
Frontend Development: HTML, CSS, React, Vite, Three.js
Backend Development: FastAPI, Node.js, Express.js, REST APIs
AI / Generative AI: LLMs, Multimodal AI, RAG, Embeddings, Semantic Search, Vector Search
Machine Learning: Scikit-learn, Random Forest, NLP, Data Preprocessing, OCR
Databases: MySQL, MongoDB
Libraries & Tools: PyMuPDF, python-docx, OpenPyXL, Pillow, Git, GitHub, Docker
Core Concepts: Data Structures, Algorithms, Object-Oriented Programming, Problem-Solving

PROJECTS

ScamShield AI – Intelligent Phishing & Online Scam Detection **2026**
Python / FastAPI / React / Vite / Scikit-learn / Random Forest / Three.js / MongoDB
GitHub Repository | Live Demo

- Developed a multi-modal cybersecurity platform to analyze suspicious messages, URLs, screenshots, and emails for phishing and online scam indicators.
- Implemented NLP, rule-based detection, OCR, and machine learning-based URL classification using a Random Forest model.
- Built FastAPI REST endpoints with threat scoring, explainable detection results, request validation, and audit logging.

DocuMind AI – Intelligent Document Processing & RAG Assistant **2026**
Python / FastAPI / React / Vite / API / RAG / Embeddings / PostgreSQL / SQLite
GitHub Repository

- Developed an AI-powered document intelligence platform for processing PDF, DOCX, XLSX, and PPTX documents with conversational question answering.
- Implemented a RAG pipeline with semantic chunking, embeddings, vector retrieval, and hybrid keyword search.
- Integrated Groq-hosted LLMs to generate context-aware answers with source citations and document-based evidence.
- Implemented user authentication, document management, and secure data handling.

EduVerse AI – AI-Powered Academic Assistant **2026**
Node.js / Express.js / API / LLMs / PDF-Parse /Git /Github
GitHub Repository | Live Demo

- Developed a full-stack AI-powered study platform for engineering students with academic learning and placement preparation features.
- Implemented AI-powered notes, quizzes, flashcards, mind maps, PDF-based study assistance, and coding practice.
- Built backend REST APIs using Node.js and Express.js and integrated Groq LLMs with multi-model fallback support.

CERTIFICATIONS

- **Python Essentials 1** – Cisco Networking Academy Oct 2026
- **Introduction to Cyber Security** Oct 2026
- **Trust and Security with Google Cloud** Oct 2026
- **AI Skills Passport** – EY & Microsoft
- **GenAI Powered Data Analytics Job Simulation** – Forage Oct 2026
- **Networking Basics** – Cisco Networking Academy / EdCreate Foundation Oct 2025
- **TCS iON Career Edge – Young Professional** – Tata Consultancy Services Oct 2026
